### PATHOLOGY REPORT

|                              |   |
|------------------------------|---|
| <b>Clinical Information.</b> | Patient currently in the Intensive Care Unit following a road traffic accident. |
| <b>Nature of specimen.</b>   | CSF for cytology examination.   |

#### GROSS:

Submitted 4 unstained smears, pap stained.

#### MICROSCOPIC:

The smears are hypocellular showing scattered lymphocytes and few histiocytes. No atypical or malignant cells are seen.

#### DIAGNOSIS:

##### CSF, conventional cytology:

- Hypocellular material.
- Negative for atypical or malignant cells.
