PATHOLOGY REPORT

Clinical Information.	Pus for analysis.
Nature of specimen.	Pus for analysis.

GROSS:

Two smears were prepared from submitted 10 ml pale yellow fluid with pus.

MICROSCOPIC:

Smears show a marked number of degenerated neutrophils and small lymphocytes with many cell debris. No evidence of atypical or malignant cells.

DIAGNOSIS:

Fluid cytology:

- Marked (suppurative) inflammatory changes.
- Negative for malignant cells.
