PATHOLOGY REPORT

Clinical Information.	Referred paraffin blocks for immunostaining of breast carcinoma.
Nature of specimen.	Referred slides and blocks

GROSS:

Two referred paraffin blocks and 2 Hx&E stained slides coded 63609.

MICROSCOPIC:

ER: positive with moderate intensity in 80% of tumor cells (Allred score 7/8).

PR: positive with moderate intensity in 70% of tumor cells (Allred score 6/8).

HER2/neu: negative in tumor cells score 0.

Ki-67 proliferation index about 40%.

DIAGNOSIS:

Referred paraffin blocks for immunostaining of Lt. breast cancer:

- ER & PR positive.
- HER2/neu negative
- Ki-67 labeling index about 40%.
